There is a good amount of texture, detail, and color here. As far as rendering, it is a little muddy on my laptop, but that is an issue I have had on many doom3 instances (Doom 3 is an awesome mod). I have heard that there has been a huge increase in quality since the last update, if not, check out their trailer. A lot of useful tools and resources on the wiki, as well as a great community of Doomers. Access to a variety of post-crash walls, including UVM mapping of the entire walls of your heart which you must destroy to save the group. There is a huge wealth of public walls, and the site was just updated and is full of new content. I have never experienced a site with so many high-quality pieces of art on it..
